[redacted] Exemption Justification

Our son [redacted] is currently enrolled in Kindergarten at Landels Elementary. We are delighted to report that [redacted] is thriving and happy at Landels and that we as parents are also enjoying our own experiences of school life at Landels.

We live very close to Landels, which is just a 1200 yard cycle away along the Stevens Creek trail (see Figure 1 below). Because the trail is a safe and segregated cycle route (see Figure 2), we have been able to walk or cycle to school every day since [redacted] started, often with a toddler in tow.

Figure 01. The route between our house and Landels elementary school is 1,200 yards long and more than 90% on the Stevens Creek Trail.

We feel this is a great, healthy start to our day and we are pleased to be keeping a car off Mountain View's congested streets. We care deeply about this and we have joined the "Walk and Roll" volunteers. Each Friday, we help to stamp cards and distribute prizes to the kids you walk or cycle to Landels to spread the word about this great commute.

Despite the proximity of our home to Landels school the new school boundaries, which will come into effect for the 2019 school year, will mean that Theuerkauf Elementary will become our assigned neighbourhood school.

Figure 02. Showing the Stevens Creek trail route to Landels, consisting of safe, well marked cycling lanes and additionally protected from traffic pollution by tree lining on both sides.

The route to Theuerkauf school that is recommended by the Mount View Whisman School district website (https://www.mvwsd.org/parents/transportation) is 1.5 miles long and involves several busy crossings and has no segregated cycle lanes (see Figure 3).

Specifically, the route involves:

- A crossing of busy Moffett Blvd (5 lanes at the point of crossing).
- An unprotected crossing of Stierlin Road.
- A crossing of very busy Shoreline Blvd (6 lanes at the point of crossing)
- An unprotected crossing of Montecito Avenue
- An additional 34 intersections with residential streets.
- Countless residential driveways, which are known danger points for young school-commuting cyclists as car-commuting workers are leaving home for work in the morning.

We have cycled this route as practice and explored alternative routes to the one suggested by MVWSD. Ultimately we do not feel it is safe for [redacted] - at his age - to cycle to Theuerkauf and we will likely end up driving to school.

Therefore we would like to request that [redacted] be given permission to continue to attend Landels elementary. We are committed to keeping our car off the road for our short daily commute to school for the good of the community and the planet and also for the health and wellbeing of our family – this is something that we believe in very strongly. We have petitioned the city council to make a safer route for cyclists but until real changes are made

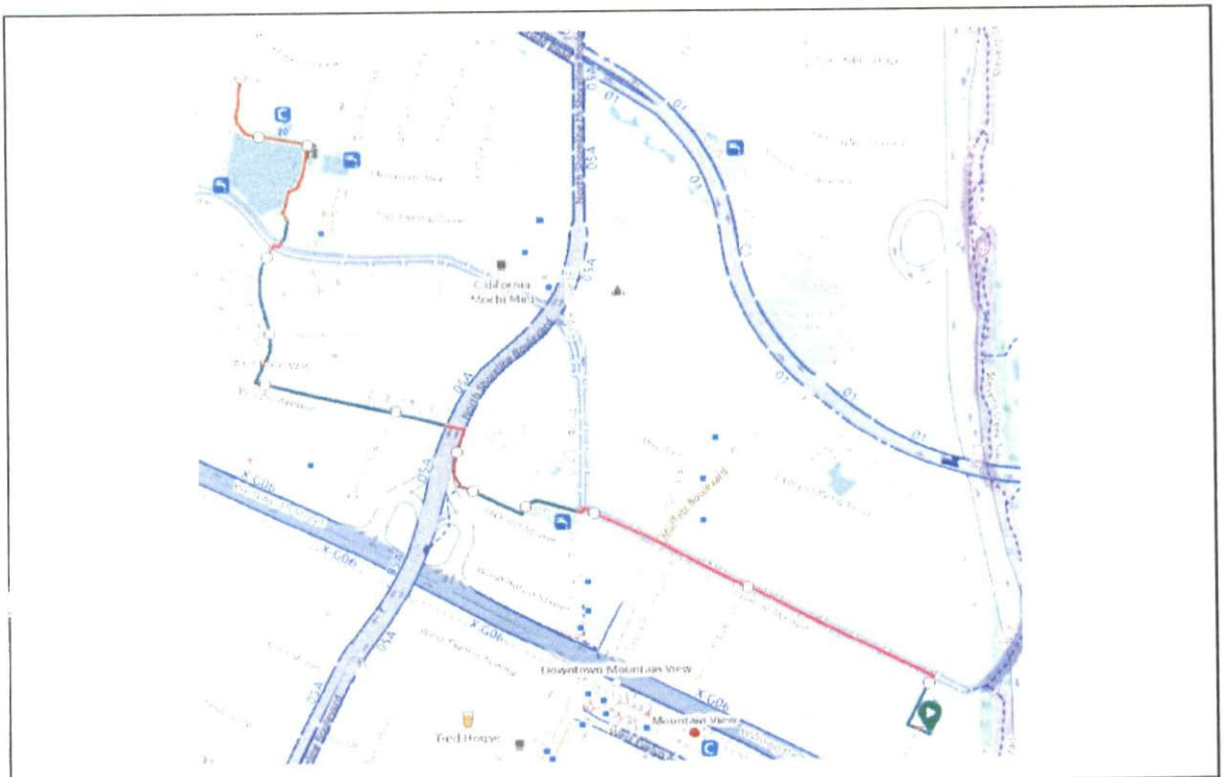

Figure 03. Showing the recommended cycle route between our house and Theuerkauf school. Involving four major crossings.

we would like [redacted] to continue to attend Landels elementary which offers a very safe cycle route.

In addition to our safety concerns we are also keen to minimise further disruption to [redacted] life as we only relatively recently relocated to the US from the [redacted] which was a challenging move for [redacted] Seeing him so happy and settled now we would like to do everything we can to keep things consistent in his life and maintain continuity in his school life while he continues to settle and adjust to life in the US.

With thanks for your consideration.

Subject: [redacted]

Dear Members of the MVWSD,

Recently I was informed via a letter to my home that my son has been abruptly transferred within the district by your office from Theuerkauf Elementary School to Monta Loma Elementary school. This news was not only very disappointing but quite upsetting for many reasons. Many of my child's parents have also reached out to me with equal emotions on the situation and are truly blindsided by this news.

My child is [redacted] only just beginning his journey at a school that our family has been attending for generations. His older brothers, mother and aunts have all attended and graduated from Theuerkauf Elementary. Many people in the office know us very well by name for decades. Having my child moved out of this school is absolutely crushing. Years of tradition and education thrown away without consent or discussing the matter.

Currently my son [redacted] is a [redacted] attending the school with a sibling attending Theuerkauf as a 4th grader going into 5th grade. They share the same address and have lived under the same roof their entire lives, are picked up and dropped off together by their grandmother, and to separate them would be a crushing blow to my son who has not only build so many relationships from his time as a Pre-K at the school but love for the staff and school itself. To move children from what they consider a safe and loving place I feel is truly irresponsible. Protecting their mental state and having them feel accepted and safe is of the utmost most importance.

Both the children live in the same home that is less than 1 mile away from the Theuerkauf Elementary where they both currently attend. They are dropped off every morning and picked up by their elderly grandmother who watches them before and after school while we are at work. Moving them to Monta Loma at 2 miles away from my current address would greatly inhibit their grandmother from being able to drop them off and pick them up from school with the change in distance being so great.

I hope you take into consideration everything I have stated above and truly hear out my concerns and my children's needs for a safe and healthy environment. I know I'm not the first or the last to be contacting you. Many parents are considering forming a petition, fighting your decision and escalating the matter and I really hope it does not get to that point. I think there is a much healthier way of opening the dialog and coming to an agreement. We all deserve a say in where our child will be attending school and when they'll be moved and hope you understand our stance on the matter and that we can come to new understanding. If you'd like to contact me to further discuss the contents of this letter please feel free to email me here or you can call me any time a[redacted] Thanks for your time.

On Jan 17, 2019, at 2:52 PM, Carmen Ghysels <cghysels@mvwsd.org> wrote:

Good Afternoon [redacted]
My name is Carmen Ghysels. I oversee the Student Services Department which includes student enrollment.

I've researched your request to continue [redacted] placement at Theuerkauf School for the 19-20 school year as a [redacted] grader.
Here's what I have discovered:

In 2018-2019 [redacted] registered for Kindergarten based on the District's former enrollment priorities which allowed families to request a specific school and grade level if the requested school had vacancy at the grade level requested. [redacted] was placed at Theurkauf for Kindergarten because space was available.

For the 2019-2020 school year, we are currently implementing new Board adopted enrollment priorities with our new boundary changes. Our Board of Trustees direction is that all students should attend their neighborhood school. Your address of [redacted] indicates that your neighborhood school is Monta Loma.

It is also my understanding that [redacted] has a current [redacted] grade cousin at Theuerkauf who currently also resides at [redacted]

I've attached a Student Placment Exemption form for you to complete at your convenience. Please return this form to the District Office 1400 Montecito Avenue. The Student Placement Exemption Committee will review your request to keep [redacted] at Theuerkauf for [redacted] grade for the 2019-2020 school year, and inform you of a decision by June 1st.

If you have any questions, please let me know.
Thank you Mr. Dominguez

To Whom It May Concern:

My name is [redacted] I am the mother of [redacted] My son currently goes to Theuerkauf Elementary School. His neighborhood school next school year is the new Vargas Elementary School. I am requesting for him to stay at Theuerkauf for the following reasons:

On the new school there will be no after school programs such as Beyond the Bell. My son currently takes advantage of this amazing program. He is doing really well in school thanks to their help.

I have a fifth grader that will be starting a new journey at Crittenden Middle school next school year. Unfortunately the distance between both schools is over a mile away. The drop offs would be hard to do. Since they both start around the same time.

I asked the new director of the new school if there would be anyone before school like there is in Theuerkauf and he told me that there would not be anyone before school incase we have to do an early drop off.

I start my job at different times through out the week. Unfortunately my job it's not flexible like other jobs. My job requires me to cover ratios, so it's hard for me to leave at pick up time and then go back to work. Living in the bay area it's really expensive. I can't loose my job in order to provide my children a great education they are getting in this city. I want my children to have the greatest education they can get. I can't loose my job. My husband starts his job at 6 am and is not able to help with drop offs and has another part time job in order to provide for our children in the afternoons.

I asked the new director if there would be any kind of transportation for the children who live in our neighborhood, he said no. He told me to have my [redacted]-year-old son walk or bike to school. My son is very distracted and I don't feel safe letting him walk 1.1 mile by himself. He also told me to Uber him, which I can't afford and I don't feel safe letting him go with a stranger. Many things

[redacted]

can happen to a child not everyone is nice. I am not sure if he would allow his young children Uber to school or walk if he was not able to do the drop off. Especially on a very busy intersection were cars drive really fast and they not always stop or watch for pedestrians.

I please ask you allow him to stay at Theuerkauf Elementary. It would make feel better and safe. I suffer from anxiety when I am stressed, and I have ended in the ER due to the awful attacks I experience, due to the stress I have. It would really help my health and my children's future as well if you are able to help us in this matter.

Thank you very much.

RECEIVED 5/2019

May 3, 2019

Mountain View Whisman School District

Attn: Ayinde Rudolph, Superintendent, MVWSD
Carmen Ghysels, MVWSD

RE: School Year 2019-2020 Exemption Request

From:

Ayinde and Carmen,

Thank you for your consideration and attention to this request. I recognize and understand the challenges and constraints presented by the rezoning of the school boundaries. It would be impossible to not make hard decisions and I think we all realize that making hard decisions means everyone cannot be satisfied with the outcome. I commend the school district for making what I feel was generally the right decision for the future of the district.

I attended the rezoning meetings and I would like to re-iterate my concern that the school district focused largely on one mode of access to schools which was the automobile. Again I think the right decisions were made that reducing traffic and not having people drive across town was a smart decision. I believe the fail of the process is that the Steven's Creek trail, which is a major artery around Mountain View was not considered as an option to reducing traffic congestion in the area. In 2014 my wife and I purchased our home due to its proximity to the Stevens Creek trail knowing full well the ease of access it provides to Landels Elementary School. Landels is within direct access to my house via Stevens Creek Trail. As a commuter who uses the Caltrain system for getting to and from work (my wife and I both work in San Francisco)-it was a dream location when I purchased my home and thought about how great it would be to bike kids to school, drop them off, and bike to the train without having to load up a car or drive. I know other neighbors have expressed interests in this as well. We have always considered Landels to be our neighborhood park, school, and recreational pit stop along the trail. Bicycles are going to continue to increase as a primary mode of transportation in the area. I know this first hand as an employee of the Public Works

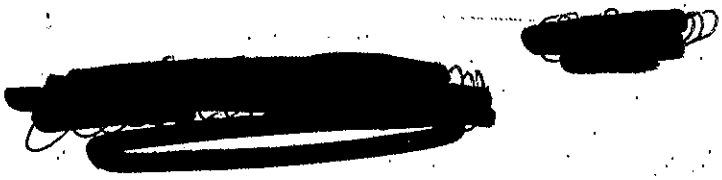
[redacted]

working on major city infrastructure projects. The trend nationwide is that cycling is growing faster than city infrastructure can keep up. We are lucky to have this infrastructure and should use it as a benefit and mode of reducing traffic in the area, providing a safe route to schools, as well as an opportunity for our kids and students to get exercise and experience this gem within our city on a daily basis. I cannot imagine a better situation for access to a neighborhood school. Let's make full use of the infrastructure that is available to our community.

My request is that the school district approve this exemption request and allow our son [redacted] attend Landels Elementary School starting in fall of 2019. We have made many of the right decisions for the future of the community, let's continue that trend and look towards the future of a more sustainable and better connected community.

Please do not hesitate to contact me if you have questions. Again I appreciate your consideration of this issue.

Sincerely,



RECEIVED 1/24/19

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

My son goes to Mountain View High School and it is hard to drop my son off at school and then dropping my daughter off, as this is on the way to my work. It would be a great hinderance for me. A lesser reason would be that my daughter's friends will be attending the school. Note that that is a very minor reason. [redacted]

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

In making this request, I understand the following conditions: 1) if granted, this exemption will be active for one (1) school year 2) if the exemption is granted, the parent/guardian will be responsible for the student's transportation to and from school.
I hereby certify that the student and parent/guardian information provided above is accurate and that I understand and agree to the above-stated conditions.

February 13, 2019

To Whom It May Concern,

I am the child psychiatrist for [redacted]. I am writing to recommend that [redacted] allowed to transfer to Graham Middle School. [redacted] an incredibly resilient boy who has been struggling with depression and anxiety symptoms. Despite his mental health challenges, he is a smart, sociable boy who has been diligent in his academics and has made many good friends. He is concerned about being separated from his social support system that has been critical to his mental health, as most of his childhood friends attend Graham Middle School. At Graham, he would have a comfortable peer network that will provide him with the support to help counter against the stress that can come with middle school and instead, help him maintain the significant gains he is making in his mental health and allow for him to make further strides in achieving his wonderful potential, given his many strengths.

Please let me know if you have any questions or concerns.

Sincerely,

[redacted]

Student School Placement Exemption Request Form

2019-20 NH school = Bubb

Current School Attending: Stevenson Elementary	This request is for the school year: 2019 - 2020
School Requested: Bubb Elementary	[redacted] 1st

Student Name: [redacted] Grade: [redacted] Birth Date: [redacted]

Parent/Guardian Name: [redacted]

Address: [redacted] Phone: [redacted]

Street City Zip

CATEGORY OF REQUEST Exemptions typically granted only for special circumstances such a Title IX civil rights, special education placement for special day classes at designated school sites, and active U.S. Military to Monta Loma only.

☐ Title IX civil rights
☐ Active US Military to Monta Loma only
☐ Special education placement for special day class
☑ Other

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

Bubb Elementary is [redacted] blocks away from us and was our neighborhood school. Due to the fact that ~~we both~~ my wife and I are required to travel a good deal for work it is no longer possible to be engaged in school activities to the extent expected by Stevenson. We do hope the committee will understand.

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

In making this request, I understand the following conditions: 1) If granted, this exemption will be active for one (1) school year 2) If the exemption is granted, the parent/guardian will be responsible for the student's transportation to and from school.
I hereby certify that the student and parent/guardian information provided above is accurate and that I understand and agree to the above-stated conditions.

☒ Other

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

Transportation and Safety of the child.
First I have other child that goes to Cristendea Middle School and currently in 7th Grade, he picks up his brother after school. It would be very difficult for me to pick up both of my child if the other ~~go~~ one goes to different school because I only have one car and I get off at work at 3 to 3:30 pm.

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

In making this request, I understand the following conditions: 1) If granted, this exemption will be active for one (1) school year 2) If the exemption is granted, the parent/guardian will be responsible for the student's transportation to and from school.

Address: [redacted] Street City Zip

REASON(S) FOR THE REQUEST:

Please provide the reason for your request. Attach supporting documentation if required.

We want to provide social and emotional stability to our son to contribute to his emotional well being. [redacted] moved from Argentina to the US at age [redacted]. He then started Preschool, then transitioned to TK in Castro, and is now currently at Bubb. We are immigrants and are planning to move back to Argentina. Given that he has been through many changes already, we would like him to remain in Bubb to give him as much stability as possible to contribute to his emotional well being which will also help him thrive academically. We are also active collaborators in the school [redacted] is currently one of the leads of Project Cornerstone, as well as a volunteer for numerous activities) and have created a sense of belonging in the school community. Additionally, wh[redacted] started at Bubb, we were told that if we moved within MView he would be able to remain in the same school up to 5th grade, so we decided to move to another location within Mountain View. Given this recent change, we are being economically affected because we would need to move again to maintain Bubb school placement. We would not have moved at that time if we knew the District was planning on making these changes.

Victim Compensation Application

2 messages

[redacted]

Fri, Dec 22, 2017 at 3:49 PM

[redacted]

Thank you for your time on the phone. I have attached the Victim Compensation application. This program is designed for victims of crime to assist with crime related expenses such as mental health counseling, residential security and medical bills that are not already paid for by insurance. There are several requirements for the program:

1. The victim cannot be on felony probation or parole
2. The victim cannot have been involved in the crime (such as instigating the crime)
3. The victim must cooperate with authorities

I am happy to help you apply for the program. Any immediate family members or those living in the house with you may also be eligible. Anyone over 18 must sign their own applications. A parent or guardian needs to sign the applications for anyone under 18. The Victim Compensation staff determines approval for the program. I will request the crime report to assist with the application.

The application is multiple pages please complete as thoroughly as possible. However the most important sections are outlined below.

For yourself:

Section 1: Your information

Section 9: Your health insurance/auto insurance info

Section 11: Civil Suit information

Sections 12 and 13: Please sign/date both sections and print name in section 13

I am happy to assist further over phone or email. Please complete the application and you can email or mail it back to me using my contact information below,

Thank you,

Supporting Documentation for [redacted] School Placement Exemption

- [redacted] two older sisters will be attending Los Altos High School
- The location of her newly assigned school Landel's is not only further away from our home but is in the complete opposite direction of Los Altos High School.
- Getting all three children to their assigned schools will be difficult due to several factors:
  - Bell schedule (5 minute difference) between the two schools
  - School Sports, extra curricular activities
  - Traffic El Camino Real
  - Parent work schedules: [redacted] father travels regularly for work. [redacted] mother leaves the home at 5:15am to work in (Los Altos) and is able to come home in the morning by 7:20am to get the kids out to school and then go back to work in Los Altos. Currently we are able to drop off at Bubb and then Los Altos High and then quickly get back to work.
- Our family has been attending Bubb school for the last [redacted] years.

Please feel free to discuss with me [redacted]

Thank you for your consideration

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

We are making this request for [redacted] because [redacted] just came to United States 1 year back and she already has changed two schools in la one year. She has struggled very hard to get her adjusted with school an environment. To keep her in same school, we changed our home from N. Whisman to Pamela drive thinking it will remain Huff only. Now her school coming is Bubb. This change in school is mentally stressing h If we are given exempt for one year, we will change our local again to Huff only.

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

Victim Compensation Application

2 messages

[redacted] Fri, Dec 22, 2017 at 3:49 PM

Hello [redacted]

Thank you for your time on the phone. I have attached the Victim Compensation application. This program is designed for victims of crime to assist with crime related expenses such as mental health counseling, residential security and medical bills that are not already paid for by insurance. There are several requirements for the program:

1. The victim cannot be on felony probation or parole
2. The victim cannot have been involved in the crime (such as instigating the crime)
3. The victim must cooperate with authorities

I am happy to help you apply for the program. Any immediate family members or those living in the house with you may also be eligible. Anyone over 18 must sign their own applications. A parent or guardian needs to sign the applications for anyone under 18. The Victim Compensation staff determines approval for the program. I will request the crime report to assist with the application.

The application is multiple pages please complete as thoroughly as possible. However the most important sections are outlined below.

For yourself:

Section 1: Your information

Section 9: Your health insurance/auto insurance info

Section 11: Civil Suit information

Sections 12 and 13: Please sign/date both sections and print name in section 13

I am happy to assist further over phone or email. Please complete the application and you can email or mail it back to me using my contact information below.

Thank you,

Nubia Avina <navina@mvwsd.org>

Transfer Exemption Request--

1 message

[redacted]

To: navina@mvwsd.org Mon, Apr 29, 2019 at 2:07 PM

Dear Ms. Avina,

Hope this email finds you well. I have just turned in an Exemption Request Form at the Office. It had little space to explain, so I thought I need to write to you.

My son, Kindergartner, is supposed to attend Huff Elementary School for the coming academic year, and I am requesting for a transfer to Therekauf for him to be with younger daughter, who will be joinning the full time Pre-K program there.

I am a single mom of three, and I have no family here. We have been in the US for 3 and half years only. My husband is included in the recently-issued, 2017, Travel Ban on Syrians, so we do not know if/ when he will join us here. I have not been able to work/ look for a job here because I am taking care of my three kids, who are suffering because we do not lead a healthy familial life.

My first son, a first grader now, is attending a Catholic school in Sunnyvale, the Resurrection. He is suffering the absence of his dad and we were lucky to receive financial assistance and spiritual help for him there.

I hope you consider our situation and approve of the exemption because commuting between two schools will save my time and efforts, with the hope that I will be working then.

Should you need any further clarification, please do not hesitate to contact with me.
Looking forward to hearing from you.

Best regards

On Wed, Jan 30, 2019 at 10:01 PM [redacted]
(cc'ing our school principal as well as [redacted] psychiatrist and ABA therapy team.)

Dear Ms. Ghysels,

Thank you very much for your quick reply and sorry it took me a while to reply back (I have been ill and went through a minor surgery and am now well). Below please find our response, supporting documentation and filled out forms.

Summary: We need to keep [redacted] at Huff school.

Reasons: We know he is going to be harmed by this forced move through school district due to the following:

- **Psychiatrist & Behavioral Therapy team recommendation:** Supporting BCBA letter attached. Pending Psychiatrist letter (will be submitted as soon as available).
- **Being singled out:** While kids at Huff and Vargas will get to keep half of their friends, [redacted] is being singled out. More details below.
- **Harm to his behavioral progress:** Observed in many instances in the past, it is coherent that any change to [redacted] environment causes extensive stress on him which leads to unforeseen reactions (SSB, physical, elopement, ...) due to his very high functional nature of ASD. In simple words, he is not an easy ASD kid with known expectations and needs. He is very sophisticated and needs a very experienced and sophisticated team to understand and coach him.
- **Harm to his educational progress:** Not only this move will affect him mentally and consequently the other kids in his class, it also will lead to him losing many hours from the class being handled by IEP team (for adjusting to the new setting). As a result, he will also academically regress.
- **Safety of children unfamiliar with him:** It took us, teachers and principal at Huff more than a year to acquaint peers with [redacted] personality and how to get along. Severe circumstance was documented with suspension this academic year.

Indeed we are aware that [redacted] can continue to receive all of his IEP services at Bubb. However, our concerns are not about the services or school, but the big change in the social environment which affects him most. We are afraid **he will lose *all* of his friends and community who became acquainted with [redacted] for his two years at Huff.** His situation is very different from the children who will go to Vargas. Those children will all know each other, but [redacted] will lose all of his friends at Bubb and inevitably struggle to adjust to the new community.

Following your advice, we went for a visit to Bubb. However, I could see how strange the kids were looking at him already, even though the teachers welcomed him very nicely to their class. **This would mean an extensive cost to the new principal and teacher, having to encounter many nervous parents about [redacted] interactions (verbal / sensory) with their kids.** That is, more than kids themselves, their parents need to know about [redacted] condition and that doesn't get achieved overnight (even though I have been a room parent both years). Now that kids and parents at Huff are familiar with him and they provide love and care to him knowing his condition. Especially for kids this age, it is hard to explain how a little kid with ASD feels (and why he is acting so strange) unless they spend a long time with them and that is our biggest concern. Set aside, it is extremely difficult for him to adjust to new environments (when he is stressed, his SSB and awkward but super intelligently planned actions raise out of control). Per his doctor, clinically, it is devastating to him to move and change his environment. **It is going to be a much harder case for the new school and IEP team to handle him and his need for a super experienced (RBT trained) aide becomes inevitable (while at Hufff we are currently hoping for fade out).**

Mr. Chang has been involved very closely with all the challenges we had with [redacted] transition in the beginning of school year. He kindly and carefully has well thought assigning him to the most fit teacher (experience and personality wise) so there are least chances of failure. However, he has also seen our extremely hard days and suspension when his aide wasn't autism experienced / RBT trained. While I have

Warm regards,
Mahsa

On Thu, Jan 10, 2019 at 11:51 [redacted]
Dear Mr. Chang and Ms. Altun,

We hope this email finds you well. Per our discussion and plan to wait till January, we are reaching out to start the process for [redacted] placement for next year. Currently, we tentatively registered him for next year at Bubb school because that was the only default option.

However, as you are aware [redacted] condition, and also confirmed by his psychiatrist, this may severely affect [redacted] social and academic performance and reset his state to where he was initially at Huff. The fact that about half of his friends will move to Vargas and the other half stay at Huff, he will remain soloed at Bubb. Given his social skill challenges, this may produce too much stress on him to be effective at the new school. This will all be in addition to class change and some of his established routines such as school services he is receiving (OT and Speech) will also change, which again will be challenging for him.

To address these concerns about [redacted] social wellbeing and academic performance next year, we would like to proceed with the appeal process for school placement. Please let us know how we should move forward. If having an IEP meeting is a recommended or mandatory step toward this, we would like to request it.

Warm regards,
[redacted]

2020 Behavior
COMPASSION. CREATIVITY. CLARITY

Re: [redacted] school placement 2019/20

To Whom It May Concern:

2020 Behavior has been providing ABA services to [redacted] since August 2018. From November 2017 until July 2018 the same team provided ABA services to [redacted] under the company name *Center for Developing Minds*. The BCBA, Charlotte Bell, and RBT, Ramla Chaudhry, have worked with [redacted] continuously during this time frame (totaling 14 months) and across many settings (home, afterschool programs and summer camps).

Over this time period large amounts of data have been collected regarding [redacted]'s aggressive behavior, his self-stimulatory behavior and his attention-seeking and escape behaviors, across settings and across people.

The data solidly proves that [redacted] self-stimulatory behavior (moving of body back and forth, perseverating on certain topics, repetitive play, swinging of body, seeking pressure on his head) is caused by changes in environment, changes in staff/team members, and having aids who do not know [redacted] and recognize these behaviors. This self-stimulatory behavior in itself can debilitate learning and if not identified and helped in the moment, and can increase the likelihood of aggression towards others. Over the summer vacation 2018, 2020 Behavior provided services to [redacted] at a variety of YMCA camps, and again the data shows that the changes in setting and the changes in staff were strongly linked to high levels of self-stimulatory behavior and resulting maladaptive behaviors.

[redacted] suspension a couple of months ago was a good example of how an un-trained aide who did not recognize the pre-cursor behaviors, allowed the situation to culminate in aggression towards another person. [redacted] needs a teacher and aid that understands the triggers. Currently, [redacted] has an RBT trained aid and a teacher who is highly supportive.

With the correct aid and support, the goal is to fade out services during the school day; however, with a change to another school this will mean that fade out of services will be pushed back by at least a year and during that time I am concerned we would see more aggressive behaviors. Having had the same after-school interventionist for 14 months, it is clear that a familiar environment and an adult that [redacted] is extremely close to can reduce SSB levels significantly, reduce aggression to zero occurrences and allow fade out of intensive intervention. Most importantly, [redacted] is able to learn fully when the above variables (same staff member, same routine, same environment) are held constant.

At the YMCA afterschool program, [redacted] is increasingly independent, has begun to make friends, and peers seem to be interested in him. This is a recent development and hugely important to embrace and nurture. [redacted] interests have historically predominantly been in gaining the attention of adults, and [redacted] is gradually beginning to want to interact with two specific peers. He is also wanting to engage with them in a pro-social way, which is a huge step. Focus at home will be on setting up some play dates with these respective peers, and it is imperative the environment stays the same so that we can continue to work on and build these positive relationships. Without positive relationships and without motivation to be with other peers in a pro-social manner, [redacted] is more likely to choose to gain attention from others in a negative manner.

With [redacted] ABA intervention in the afternoon and at home, we are truly at a point where we can make a big difference and impact on [redacted] and his family's life. However, for this to be successful, we need for his school environment to remain the same and his peers at the afterschool program to still be present, to continue and success with our intervention. By building on the relationships he has and keeping his anxiety (and subsequent SSBs) low, we have a real of success.

Therefore, I strongly believe that [redacted] should remain at Huff Elementary for the 2019/20 school year.

If you have any questions, please do not hesitate to contact me.

Regards,

[redacted]

[redacted]
Clinical Manager, 2020 Behavior.

Summary: We need to keep [redacted] at Huff school.

Reasons: We know he is going to be harmed by this forced move through school district due to the following:

- **Psychiatrist & Behavioral Therapy team recommendation:** Supporting BCBA letter attached. Pending Psychiatrist letter (will be submitted as soon as available).
- **Being singled out:** While kids at Huff and Vargas will get to keep half of their friends, Artin is being singled out. More details below.
- **Harm to his behavioral progress:** Observed in many instances in the past, it is coherent that any change to [redacted] environment causes extensive stress on him which leads to unforeseen reactions (SSB, physical, elopement, ...) due to his very high functional nature of ASD. In simple words, he is not an easy ASD kid with known expectations and needs. He is very sophisticated and needs a very experienced and sophisticated team to understand and coach him.
- **Harm to his educational progress:** Not only this move will affect him mentally and consequently the other kids in his class, it also will lead to him losing many hours from the class being handled by IEP team (for adjusting to the new setting). As a result, he will also academically regress.
- **Safety of children unfamiliar with him:** It took us, teachers and principal at Huff more than a year to acquaint peers with [redacted] personality and how to get along. Severe circumstance was documented with suspension this academic year.

Details:

We are aware that [redacted] can continue to receive all of his IEP services at Bubb. However, our concerns are not about the services or school, but the big change in the social environment which affects him most. We are afraid **he will lose *all* of his friends and community who became acquainted with [redacted] for his two years at Huff.** His situation is very different from the children who will go to Vargas. Those children will all know each other, but [redacted] will lose all of his friends at Bubb and inevitably struggle to adjust to the new community.

Following your advice, we went for a visit to Bubb. However, I could see how strange the kids were looking at him already, even though the teachers welcomed him very nicely to their class. **This would mean an extensive cost to the new principal and teacher, having to encounter many nervous parents about [redacted]'s interactions (verbal / sensory) with their kids.** That is, more than kids themselves, their parents need to know about [redacted]'s condition and that doesn't get achieved overnight (even though I have been a room parent both years). To whom it may concnern

[redacted]has been in treatment at our clinic for the diagnosis of Autism. He has benefited from medication, therapeutic interventions at home and school, since July 2018.

As many children that suffered from this neurodevelopmental disorder eliminating changes in their environment and modifications in the routines that have been beneficial to their progress are essential to their growth and development.

We anticipate that he will suffer severe difficulties and most likely will experience a regression of his more severe symptoms if he was to be transfer to a new school environment. He has benefited from the structure and support built in his current school plan. The behavioral strategies developed and implemented by the current IEP team have fostered his academic and behavioral growth. We will hope he can be supported to avoid the stressors emanating from a transition to a new program. Therefore I will recommend to avoid any transfer or changes in the program.

I encourage his parents and school officials to develop a plan that will maintain the current placement and academic, behavioral, and developmental interventions he is receiving at his school, in the current program.
Please do not hesitate to contact me if you need any additional information
Sincerely

On Thu, Jan 10, 2019 at 5:48 PM [redacted]

Dear Ms. Ghysels,

We hope this email finds you well. We are reaching out to you with regards to our deep concern about [redacted] placement for next year who has adiagnosis for both Autism and ADHD. We have spoken with all of [redacted]-care team (Psychiatrist, BCBA and ABA Therapists). All the team believes his transition to another school for next year is going to have negative effect on his social wellbeing as well as academic performance.

Following up on your recommendation, we did do our diligence and made a lot of research about Bubb school and agree it is a great school (per your recommendation, we also visited the school and had a full tour) and as parents, we like the school. However, digging through [redacted]'s therapy and psychology team and considering the current circumstances, it is going to be a devastating situation for [redacted] to move at this time. That is, while half of his peers are moving to Vargas and half staying at Huff, he is getting soloed out in Bubb, despite his significant social challenges and difficulty with finding his place among his peers. It took us as parents also a LONG while to finally learn about other special needs children at [redacted]s school, so that we could have special playdates where [redacted] was more accepted. We do not know anyone at Bubb (more importantly no other parents knows about [redacted] situation there which would cause more stress when kids tell them about him) and all the progress [redacted] has made so far since he started at Huff will reset with this transition, which will be devastating. Considering his severe social challenges, we are certain his transition is not going to be beneficial but a lot damaging to him.

As a result, we do need to appeal his transition to Bubb school and need to start the formal process to request keeping him at Huff due to his condition and medical/therapy recommendations. We appreciate if you advise us what step we need to take now to formally start this process.

Warm regards,
[redacted]

Jan. 24, 2019

The parents of [redacted] age [redacted] grade) and [redacted] grade) are requesting that both of our children stay registered at their current school Edith Landels Elementary for the 2019 – 2020 school year and the 2020 – 2021 school year. As of right now they are registered for Huff Elementary for the upcoming school year. There are two reasons we believe we should stay at Edith Landels Elementary.

The first reason is the most important. As you know, last year it was uncovered that [redacted] was and had been bullied by a peer student since kindergarten. It was uncovered to be very violent, both physically and emotionally. This was continued due to the lack of leadership by the then principal, Steve Chesley. Due to the way the school had handled discipline with Steve Chesley as principal our son, [redacted] lost all sense of being secure at school. He trusted no adult because no one listened, believed, or cared anymore. With a lot of parenting, counseling, and school staff support, we are happy to say that [redacted] now has trust in the new principal, Heidi Galassi, his current teacher, Klancey Haley, and a few staff members. Any time there has been an incident, no matter how small, they have taken action immediately and listened to [redacted] concerns.

[redacted] also affected by the bullying and had the same feelings of being unsafe at Landels. We are fortunate that her teacher, Liz Perry (this year), has understood her feelings and re-assigned [redacted] to a different RTI and ELD class rotation to be away from the other child that hurt [redacted] When Ms. Perry did that [redacted] then started to regain trust in the system again.

In therapy, it was started to be brought up that [redacted] and [redacted] would be going to a new school, Huff Elementary. This has given both the children high anxiety due to having to leave the safety net that has finally been created.

We have worked extremely hard at home, in school, and in therapy to give the kids a sense of trust and security at Landels. The thought of starting the process of gaining trust at a new school, without peers that both the children trust, is too large. The therapist agrees that it would be beneficial for both [redacted] and [redacted] to stay at their current school where they feel safe. Both parents have always been patient, forgiving, and thoughtful through the horrible process of keeping our child safe in school where he should have always been safe. Because of everything stated above we are highly requesting that [redacted] and [redacted] be allowed to stay in their safe environment at Edith Landels Elementary.

The second reason we believe we should be allowed to stay is because [redacted] is also an employee at Mountain View Whisman School District.

We thank you for your time and understanding of the situation our children have been put through.

Sincerely,

[redacted]

The parents of [redacted] age 9 – 3rd grade) and [redacted] age 9 – 3rd grade) are requesting that both of our children stay registered at their current school Edith Landels Elementary for the 2019 – 2020 school year and the 2020 – 2021 school year. As of right now they are registered for Huff Elementary for the upcoming school year. There are two reasons we believe we should stay at Edith Landels Elementary.

The first reason is the most important. As you know, last year it was uncovered that [redacted] was and had been bullied by a peer student since kindergarten. It was uncovered to be very violent, both physically and emotionally. This was continued due to the lack of leadership by the then principal, Steve Chesley. Due to the way the school had handled discipline with Steve Chesley as principal our son, [redacted] lost all sense of being secure at school. He trusted no adult because no one listened, believed, or cared anymore. With a lot of parenting, counseling, and school staff support, we are happy to say that [redacted] now has trust in the new principal, Heidi Galassi, his current teacher, Klancey Haley, and a few staff members. Any time there has been an incident, no matter how small, they have taken action immediately and listened to [redacted] concerns.

[redacted] also affected by the bullying and had the same feelings of being unsafe at Landels. We are fortunate that her teacher, Liz Perry (this year), has understood her feelings and re-assigned [redacted] to a different RTI and ELD class rotation to be away from the other child that hurt [redacted] When Ms. Perry did that [redacted] then started to regain trust in the system again.

In therapy, it was started to be brought up that [redacted] and [redacted] would be going to a new school, Huff Elementary. This has given both the children high anxiety due to having to leave the safety net that has finally been created.

We have worked extremely hard at home, in school, and in therapy to give the kids a sense of trust and security at Landels. The thought of starting the process of gaining trust at a new school, without peers that both the children trust, is too large. The therapist agrees that it would be beneficial for both [redacted] and [redacted] to stay at their current school where they feel safe. Both parents have always been patient, forgiving, and thoughtful through the horrible process of keeping our child safe in school where he should have always been safe. Because of everything stated above we are highly requesting that [redacted] and [redacted] be allowed to stay in their safe environment at Edith Landels Elementary.

The second reason we believe we should be allowed to stay is because [redacted] is also an employee at Mountain View Whisman School District.

We thank you for your time and understanding of the situation our children have been put through.

Sincerely,

[redacted]

[redacted]

January 15, 2019

Dear Exemption Review Committee:

The reason we are requesting an exemption is there is not a safe passage from our home to Theuerkauf, our assigned school in the new school boundary map. See supplement attachment "The case for a school boundary amendment affecting residents of the Orchard Avenue area" authored by Simon Box for the case the Orchard Avenue area residents have been assigned to Theuerkauf school in error due to lack of safe passage.

Given one of the board's requirements for the new school boundary was safe passage this was not achieved for our neighborhood. To get to our current assigned school, Landels, we can walk or bike or scooter safely without crossing any major streets. See figure 01 in supplement document on route to Landels. To get to our new assigned school, Theuerkauf, we can walk or bike or scooter but we would have to cross both Moffett Blvd. (5 lanes at the point of crossing) and Shoreline Blvd. (6 lanes at the point of crossing) which would not be considered safe passage for young children. See figure 03 in supplement for route to Theuerkauf. There are zero accidents to Landels reported. Seven accidents on route to Theuerkauf during a 3 months period of July-September 2018 are reported. The route to Theuerkauf is unsafe passage.

It is critical our daughter [redacted] continues to have safe passage to school. Additional benefits to [redacted] being able to safely walk, bike, and roll to school include getting the wiggles out before class, exercise, and learning about conservation.

We are requesting exemption to stay at Landels or attend the new school Vargas which also offers a safe passage to school utilizing the Stevens Creek Trail and down Glady from our neighborhood. No major streets crossed.

Please kindly consider our request for a safe passage to school for [redacted]

Sincerely,

[redacted]

[redacted]

The case for a school boundary amendment affecting residents of the Orchard Avenue area.

Summary of Document Contents

The case made in this document is that the drawing of the 2019 MVWSD boundaries is erroneous in respect of the Mountain View residents who live in the area of Orchard Avenue and the surrounding streets.

The principal argument is that these residents have been assigned to Theuerkauf school in error because of the absence of safe and sustainable commuting options between the Orchard Avenue area and Theuerkauf school. Especially in light of the existing safe and segregated route to Landels school along the Stevens Creek trail.

The document sets out specific evidence that commute between the Orchard Avenue area and Theuerkauf school is:

- Unsafe for cycle commuting by elementary school age children.
- Contradictory with the aims and recommendations of the City of Mountain View Environmental Sustainability task force 2 (2017/2018).
- Contradictory with the stated aims of the MVWSD boundary drawing exercise.
- Prodigal with previous taxpayer investments in Stevens Creek trail.
- Unsupported by existing sustainable transport infrastructure.

Commuting to school by bicycle.

For the residents of the Orchard Avenue area, there is a safe and pleasant route to Landels Elementary school via the Stevens Creek trail (see Figure 01). It is only 1,200 yards.

The route is well maintained with good cycle lane markings (see Figure 02). Currently, many of the families in the Orchard Avenue area use Stevens Creek trail to get to school every day and then continue to walk/cycle on to their place of work after dropping off their kids. This keeps cars off the city's congested streets during peak commuter times.

The Stevens Creek route is segregated from vehicular traffic and lined with trees, offering commuting children some protection from breathing harmful vehicle exhaust fumes.

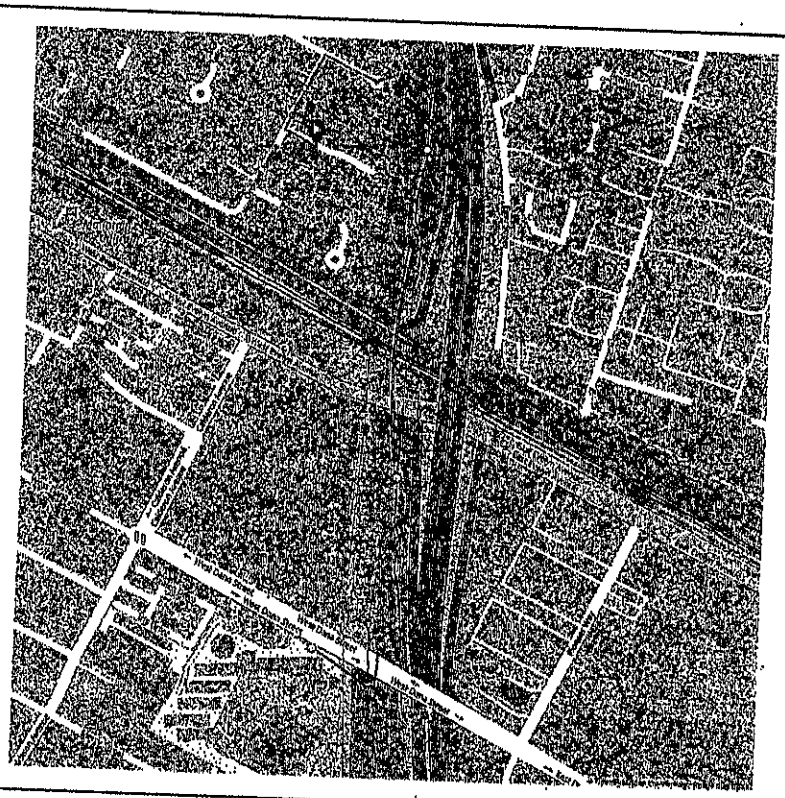

Figure 01. The route between the Orchard Avenue area and Landels elementary school is 1,200 yards long and more than 90% on the Stevens Creek Trail.

Figure 02. Showing the Stevens Creek trail route to Landels, consisting of safe, well marked cycling lanes and additionally protected from traffic pollution by tree lining on both sides.

The map in Figure 03. shows the cycle route between the Orchard Avenue area and Theuerkauf school as recommended on the MVWSD website. The route is 1.5 miles and entirely on streets that are shared with cars. None of the streets on the recommended route have designated cycle lanes. The route involves:

1. A crossing of busy Moffett Blvd (5 lanes at the point of crossing).
2. An unprotected crossing of Stierlin Road.
3. A crossing of very busy Shoreline Blvd (6 lanes at the point of crossing)
4. An unprotected crossing of Montecito Avenue
5. An additional 34 intersections with residential streets.
6. Countless residential driveways, which are known danger points for young school-commuting cyclists as car-commuting workers are leaving home for work in the morning.

This route may be appropriate for experienced adult cyclists, but it is not at all appropriate for elementary school age children. In asking kids who cycle commute to school to make this journey twice a day MVWSD is imposing an unacceptable level of risk on these children.

A stated aim of the exercise to redraw the MVWSD for 2019 was to avoid busy road crossings. This aim has clearly not been met in the case of children living in the Orchard Avenue area. The existing route to Landels school (Figure 01) does not have a single road crossing.

The City of Mountain View Environmental Sustainability Task Force - 2 recently reported a detailed analysis of sustainability and capacity of the transport infrastructure in Mountain View and made a number of specific recommendations and aims for the the future. Including, with respect to bicycle trips, that it should be possible by 2030 to achieve:

"30% of trips to and from K-12 schools (up from the current 14.2%)"

With respect to the residents of the Orchard Avenue area, the reassignment of their neighbourhood school from Landels to Theuerkauf directly contradicts the aims and recommendations of the City's ESTF-2 Report.

Prodigal treatment of taxpayer investment in the Stevens Creek Trail and the Central Expressway bridge.

The taxpayers of Mountain View and surrounding cities have invested tens of millions of dollars in the development of the Stevens Creek trail. In particular the huge 1100 ft pedestrian bridge spanning Evelyn Avenue, Central Expressway and the Caltrain Tracks (see Figure 04). The trail and the bridge (in particular) are a lifeline, connecting those Mountain View residents who live North of the Central Expressway with Landels school on the other side. Every morning the bridge is packed with Landels students making a safe and environmentally friendly journey to school.

Figure 03. Showing the recommended cycle route between the Orchard Avenue area and Theuerkauf school.

Figure 04. 1100 Ft Pedestrian bridge Crossing Evelyn avenue, Central Expressway and the Caltrain tracks to reach Landels School on the other side.

By choosing to draw the new school boundary for Landels along central expressway MVWSD is squandering this incredible resource for safe environmentally friendly transportation. Now, no elementary school children will commute to school on this section of the trail and the wonderful - and very expensive - bridge will be unused by elementary school commuters. This is a tragedy of policy, where an existing capital investment in sustainable transport is wasted and instead children are routed over Moffett Blvd and Shoreline Blvd in locations where no such pedestrian bridges exist.

In addition to the safety issues already outlined the new boundaries will also impact children's health by denying them an important opportunity to exercise and start their day in a healthy and active way.

Summary of sustainable transport options.

It is evident that the sustainable transport options for the school commute were either not considered at all when drawing these school boundaries or given sufficiently low priority that some children - for example, those in the Orchard Avenue area - have ended up with no cycle commuting options at all. This is sad. It will lead to more cars on the road during busy commuting times in the city and a less active and healthy start to the day for these children.

Appendix on accident rates on the cycle routes to Theuerkauf and Landels

On December the 11th Mountain View Voice reported road traffic accident data for the three months July - Sept (inclusive)[1]. An interactive map of accident data for the period is published here.

In Figure 5 below the cycle route from Orchard Avenue to Theuerkauf school(ref Figure 3) is shown traced over the accident map. There were a total of seven road traffic accidents on this route during the three month period. In contrast on the route Landels school (ref Figure 1) there were none.

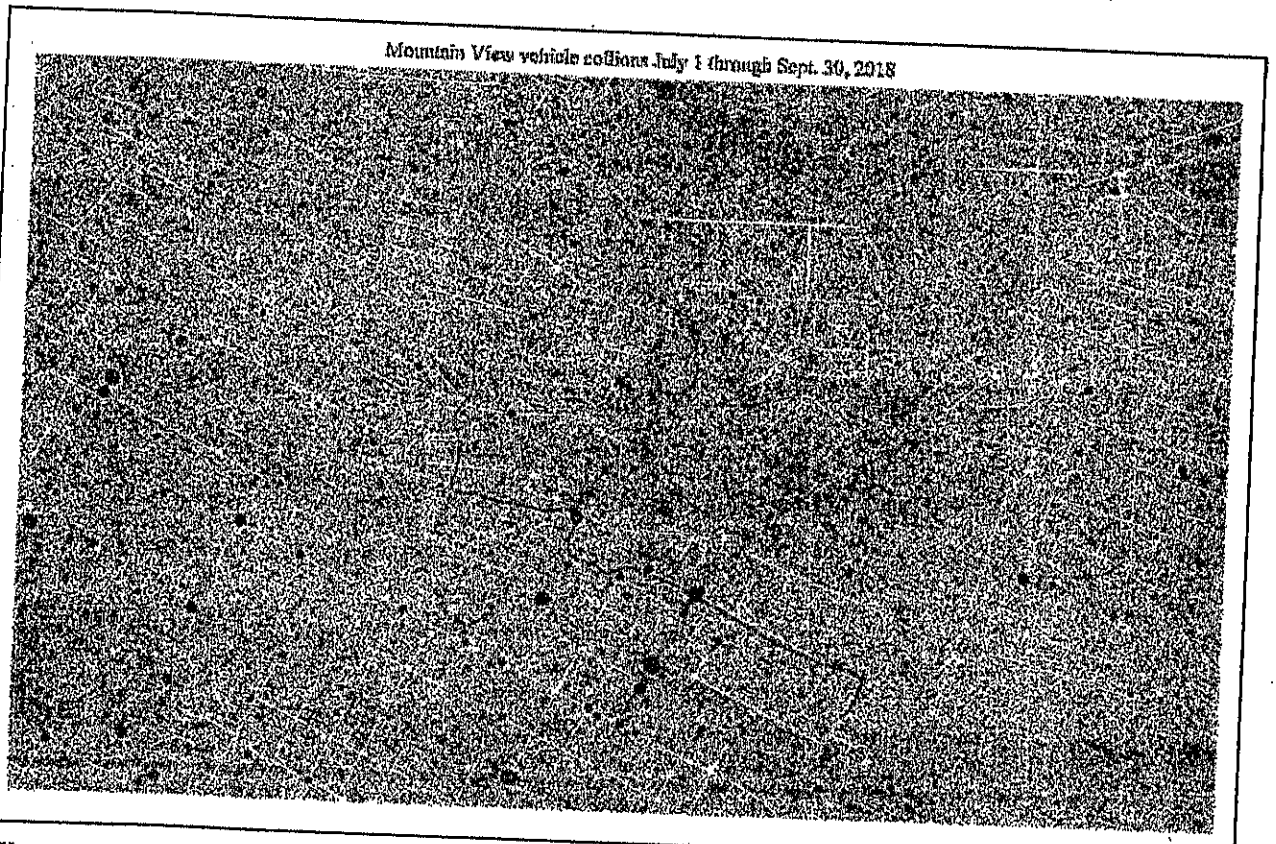

Figure 05. The route to Theuerkauf traced over an map showing road traffic accidents in July-September 2018. There were 3 accidents at the Moffett Blvd junction and 2 at the Shoreline Blvd junction and a further 2 on residential streets in between. A total on 7 on the proposed cycling route.

Please provide the reason for your request. Attach supporting documentation.

My child has Juvenile Idiopathic Arthritist and we need her to go to swimming after school for physical therapy for her leg. Swimming facility is down in Santa Clara and with the new school and new bell schedule we will not make it in time for her to attend. She needs to be dressed and ready by 4PM and in the pool. This is the only time they have for her age groups.

To Whom It May Concern,

[redacted] client of mine at California Children's Services, and I see her for physical therapy services as part of her medical team. [redacted] has a diagnosis of juvenile idiopathic arthritis, which affects the joints of her legs and particularly her knees and ankles. [redacted] participates in swimming several times per week, and I have prescribed swimming as a part of her physical therapy home program. Swimming is an important home therapy for [redacted] as it provides strengthening of her legs in a low-impact activity, it allows her to exercise in a way that protects her joints, and it helps her maintain aerobic fitness so that she is able to participate in routine physical activities. I understand that [redacted] school schedule conflicts with her swimming. However, I support the [redacted] family in their desire to have [redacted] continue her swimming program despite the school schedule conflict.

Please contact me if you have any questions.

Thanks,

[redacted]

To whom it may concern,

I am writing on behalf of my patient, [redacted] who is seen in the pediatric rheumatology clinic for a history of juvenile idiopathic arthritis. She is currently in a flare of her arthritis and has a history of deconditioning with her first flare of arthritis. For this reason, it is imperative that she be allowed to remain in her current school district in order to be in her swimming program. The swimming is essential for her continued treatment and rehabilitation of her arthritis. Please feel free to contact me with any questions or concerns. Thank you for your understanding and cooperation.

Sincerely,

[redacted]

Reasons for [redacted] stay at Landels (instead of Vargas where we are zoned for):

1. **Child Care Arrangements:** As a full time working mom, I have depended on Landels YMCA after-school care since [redacted] started at Landels as a Kindergartener. As a returning student, [redacted] has priority at Landels YMCA kids place and is guaranteed a spot. However, if we are to go to Vargas, there is no guarantee that I would get a spot for after school childcare. That is not acceptable given my current full-time work commitment, and I must have guaranteed on-site after school care if I am to continue sending my son to public schools in MV.

2. [redacted] **has been at Landels Kindergarten thru 3rd grade.** It would be great if he can just stay at finish 4th and 5th there since most of his friends will be staying at Landels.

3. [redacted] **has been involved in extracurricular activities at Landels:** [redacted] has been in Math Olympiads on Tuesday after school at Landels, and is one of the few 3rd graders that were invited. He is doing great and on track to continue in 4th grade. Vargas does not have Math Olympiads that I know of.

4. **Music for 4th and 5th graders:** [redacted] has taken private music lessons since 4yrs old, and he will be joining the instrumental music class that Landels has been offering. It is unclear that Vargas will have a big enough music class with 5th graders where [redacted] will feel challenged enough.

Below is the guideline from California Department of Education regarding enrolling in a school within the district that is outside attendance area. I have highlighted the relevant sections in red.

https://www.cde.ca.gov/re/di/fq/districttransfers.asp#intradistricttransfer
An intradistrict transfer/open enrollment is when parents/guardians wish to register/admit/enroll their student(s) at a school other than the designated school that is in their attendance area **within** their district.

California *Education Code* Section 35160.5(b) (http://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?sectionNum=35160.5.&lawCode=EDC) permits parents to indicate a preference for the school which their child will attend, irrespective of the child's place of residence **within** the district, and requires the district to honor this parental preference if the school has sufficient capacity without displacing other currently enrolled students.

Districts are encouraged to give preference to siblings attending the same school and to consider the location of parents' places of employment or established child care arrangements in determining enrollment priority. Districts are allowed to make case-by-case exceptions in order to ameliorate harmful or dangerous situations.

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

We live near the entrance of Stevens Creek Trail and can bike to school every day. It takes us about 6-7 min to get to school safely without crossing any street (not even a driveway!). For my son to go to Theuerkauf means more than 30 minutes walking twice a day and crossing about 6 streets and busy roads. I don't have a car so driving him to school isn't an option.

Thank you for your understanding!

☒ Other

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

Our son likes to bike to school, and we live right next to Stevens Creek Trail, allowing us to get safely to school without crossing intersections. This will no longer be the case with Theuerkauf. Our son gets upset every time we mention him switching the school, and he always begs to stay at Landels. We believe him staying at Landels will be the best for his emotional state and ability to learn.

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

In making this request, I understand the following conditions: 1) If granted, this exemption will be active for one (1) school year 2) If the exemption is granted, the parent/guardian will be responsible for the student's transportation to and from school.
I hereby certify that the student and parent/guardian information provided above is accurate and that I understand and agree to the above-stated conditions.

Student School Placement Exemption Request Form

2019-20 NH School: Theuerkauf

Current School Attending: Landels Elementary	This request is for the school year: 2019 - 2020
School Requested: Landels Elementary	[redacted] 4th

Student Name: [redacted] Grade: [redacted] Birth Date [redacted]

Parent/Guardian Name: [redacted] Phone: [redacted]

Address: [redacted]
Street City Zip

CATEGORY OF REQUEST Exemptions typically granted only for special circumstances such a Title IX civil rights, special education placement for special day classes at designated school sites, and active U.S. Military to Monta Loma only.

- ☐ Title IX civil rights
- ☐ Active US Military to Monta Loma only
- ☐ Special education placement for special day class
- ☐ Other

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

My daughter has been in Landels since Pre-school at the Y. Moving her in 4th grade to a different school and separating her from her friends and Landels school spirit where she has so many wonderful memorries seem very cruel. My son went to Landels so as his parents we volunteered and donated to school for 7 years. We understand there is no guarantee she can stay for 4th grade but we want the option to be considered so she can graduate with her classmat she knows and loves. Thank you.

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

In making this request, I understand the following conditions: 1) If granted, this exemption will be active for one (1) school year 2) If the exemption is granted, the parent/guardian will be responsible for the student's transportation to and from school.
I hereby certify that the student and parent/guardian information provided above is accurate and that I understand and agree to the above-stated conditions.

My Daughter is quite outgoing and bright and we expected her to adjust to Kinder just fine. However, we were very disheartened and surprised when it took her ~6 mo. of crying, changed behavior to being very clingy and angry and scared when going to school and at drop off etc. We hope to have a steady experience for her at Monta Loma and continued. She has made friends and loves the teachers and environment. We would love to stay and grow there!

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

Student School Placement Exemption Request Form

2019-20 School : ~~Monta Loma~~ CASTRO

Current School Attending: Monta Loma	This request is for the school year: 20 19 - 20 20
School Requested: Monta Loma	

Student Name: [redacted] Grade: [redacted] 3rd Birth Date: [redacted] Gender: [redacted]

Parent/Guardian Name: [redacted] Phone [redacted] Cell: ____

Address: [redacted] (Street / City / Zip)

CATEGORY OF REQUEST Exemptions typically granted only for special circumstances such a Title IX civil rights, special education placement for special day classes at designated school sites, and active U.S. Military to Monta Loma only.

- ☐ Title IX civil rights
- ☐ Active US Military to Monta Loma only
- ☐ Special education placement for special day class
- ☒ Other

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

We are requesting that our Son be allowed to stay at Monta Loma following our move. Here is our understanding that as an ~~odder~~ older enrollee school our children would be allowed to stay. If [redacted] is required to change schools it will be his 5th new school when entering 3rd grade. He struggles tremendously with school transitions. He has already visited with the principal about his social & emotional well being. He is finding success in the Monta Loma community. This change would be harmful to his well being. We are at the core requesting some extremely valuable stability for our sons mental, social, & emotional well being. His sister is in 1st grade, here staying with him & keeping our family together would be part of this for him - he would be distraught if they were separated. Thank you for thinking about the individuals being affected by this, they are children.

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

In making this request, I understand the following conditions: 1) If granted, this exemption will be active for one (1) school year 2) If the exemption is granted, the parent/guardian will be responsible for the student's transportation to and from school.

- ☒ Other

REASON(S) FOR THE REQUEST:
Please provide the reason for your request. Attach supporting documentation.

We are requesting that [redacted] be allowed to stay at Monta Loma to keep our family together. Her brothers request can be referenced. This would be her 3rd school as a 2nd grader. Stability is also important for her & she values being a part of the Monta Loma community. Changing schools or being separated from her brother would be emotionally hard for her.

PARENT/GUARDIAN STATEMENT OF UNDERSTANDING

In making this request, I understand the following conditions: 1) If granted, this exemption will be active for one (1) school year 2) If the exemption is granted, the parent/guardian will be responsible for the student's transportation to and from school.

How does changing Schools affect a child ?

During the course of their academic lives, children have to change school for a variety of reasons. For example parents may change jobs or separate and as a result the children have to change schools. Sometimes the changes may occur due to personal choices (e.g. search for better quality) or social reasons (e.g. change in financial situation). Although the reasons may be valid, changing schools must be handled with extreme caution since changes can have negative consequences on your child.

Academic changes and challenges

The curriculum can vary within a grade from one school district to the next. Teachers may adjust their pace to fit a particular class. When the new child arrives they may be ahead or behind the new class. Teachers also have different styles of teaching and new students may have to take time to adapt. In the 1990's a study by the American Medical Association, involving ten thousand students found out that children who move frequently are 35 % more likely to fail a grade. It can also put a child academically behind by up to six months .The statistics further show that changing high schools puts students at a higher risk of in fact dropping out.

Peer Relationships

Interaction with their peers is extremely important to children .They may leave a school where they know most of their classmates and move to a new school where they have to begin again to establish new friendships. This can be quite traumatic for a child.

Relationship between School /Parents and Child

An important part of the success of a school is that there is usually a strong collaboration and working relationship between schools and parents. This takes time to build. This makes it difficult and challenging for all parties to begin building a strong relationship. It can also take a while for records from the previous school to arrive.

Disruption to a class

A new student can have an effect on the class dynamics. It is not only that new students have to adjust, it's the fact that their new classmates have to as well. In addition a teacher normally has to take time out from normal schedules to assess and assimilate new children.

Increases the risk of Psychotic Symptoms

Recent research has found that children who had changed schools three or four times in their childhood were found to be at least 60 % more likely to display at least one psychotic symptom. Studies have also shown that changing schools can often lead to feelings of low self-esteem.

Census information suggests that up to 18% of American school age children change homes in any given year. Most children will transfer to a new school or district at least once before they graduate from high school .

Sometimes it is unavoidable that a child must change schools. If this is the case then everything must be done to make the transition as smooth as possible .Whatever the reason for changing school, working closely and positively with your child and their new school will be in their best interest.

The Negative Impact of Children Changing Schools

Written by Neil Kokemuller

Children change schools for a few common reasons. Parents may move for a job or divorce, which necessitates the move to a new school. In other cases, parents elect to have their kids switch schools for personal, social, academic or athletic reasons. Whatever the motive, school changes can have negative consequences.

Social Difficulties

Peer relationships are important for the confidence and academic success of students at various ages. When a child switches schools, he may leave an environment where he knows most of his peers and has several strong relationships. At the new school, he doesn't known anyone initially and may feel isolated. This puts pressure on parents, the student, the new teacher and school to help the child quickly adjust and engage in social activities.

Class Disruption

The majority of kids change schools at some point, according to a July 2009 Phys.org article. This reality not only affects individual students, but classrooms as well. Teachers have to take time away from normal schedules and academic routines to assimilate new kids into their classrooms. While the entering student has to adjust socially, the other students also have to adjust to the presence of another personality.

Academic Challenges

Students face a variety of academic challenges from switching schools. First, grade-level curriculum can vary from one school district to the next. Thus, a student may change to a school where his competencies or experiences fall short of, or exceed those of peers. Within the school year, different teachers and classrooms move at different paces, so a student may come in ahead of, or behind the new school's schedule. Teachers also have different teaching styles and methods, which may involve a learning curve for the new student.

School-Child Relationships

Success in school is often built on strong collaboration between the school administration, teachers and parents. Students who periodically or constantly change schools make it challenging for all parties involved to build strong relationships. Teachers may need time to assess a student's abilities to properly place him in reading, math or science groups, or work teams. Schools also rely on transfers of educational and personal records to assimilate the student, which can take time, especially with multiple, fast moves.

Study: Switching Schools May Give Your Kids Psychotic Symptoms

By ALICE PARK February 20, 2014

Changing schools can be a wrenching social and emotional experience for students, say researchers from Warwick Medical School in the U.K. And the legacy of that struggle may be psychosis-like symptoms of hallucinations and delusions.

Dr. Swaran Singh, a psychiatrist and head of the mental health division at Warwick, became curious about the connection between school moves and mental health issues after a study from Denmark found that children moving from rural to urban settings showed increased signs of psychoses. The authors also noted that the students had to deal with not just a change in their home environment, but in their social network of friends at school as well.

Singh was intrigued by whether school changes, and the social isolation that comes with it, might be an independent factor in contributing to the psychosis-like symptoms.

Working with a database of nearly 14,000 children born between 1991 and 1992 and followed until they were 13 years old, Singh and his colleagues investigated which factors seemed to have the strongest effect on mental health. The children's mothers answered questions about how many times the students had moved schools by age nine, and the children responded to queries about their experiences either bullying others or being victims of bullying. The survey even included a look at the children's in utero environments, and their circumstances from birth to age 2, by asking the mothers about where they lived (in urban or village areas, for example), and about financial difficulties or other family social issues.

Based on their analysis, says Singh, switching schools three or more times in early childhood seemed to be linked to an up to two-fold greater risk of developing psychosis-like symptoms such as hallucinations and interrupting thoughts. "Even when we controlled for all things that school moves lead to, there was something left behind that that was independently affecting children's mental health," he says.

MORE: Do Psychotic Delusions Have Meaning?

Factors such as a difficult home environment – whether caused by financial or social tension, or both – living in an urban environment, and bullying contributed to the mental health issues, but switching schools contributed independently to the psychosis-like symptoms.

Singh suspects that repeatedly being an outsider by having to re-integrate into new schools may lead to feelings of exclusion and low self-esteem. That may change a developing child's sense of self and prime him to always feel like an outlier and never an integrated part of a social network; such repeated experiences of exclusion are known to contribute to paranoia and psychotic symptoms.

Bullying created a secondary way in which repeated school moves could lead to mental health issues — bullying is known to be associated with psychotic symptoms, and mobile students are more vulnerable to bullying,

The negative emotional experiences students go through in trying to adjust to new schools can have physiological consequences as well. "Repeated experiences of being defeated in social situations leads to changes in the brain and in the dopaminergic system," says Singh. That makes the brain more sensitive to stress, and stress, with its surges of cortisol, can lead to unhealthy neural responses that can contribute to mental health problems. "Something about chronic marginalization, and chronic exclusion, is neurophysiologically damaging," he says.

MORE: Lasting Legacy of Childhood Bullying: Psychiatric Problems In Adulthood

Singh and his team plan to continue to follow the students for several more years, to determine how frequently the psychosis-like symptoms manifest into true psychotic disorders like schizophrenia. So far, the findings don't suggest that kids who move schools three or more times are priming themselves for future mental health problems – what the data suggest instead is that children who are more mobile early in development may need more attention and help to settle into their new environments and make strong social connections. "If we start thinking of mobile students as a potentially vulnerable group, then we can shift how we view school moves," he says. Psychiatrists and psychologists, for example, often ask young children about their family and friends, but rarely inquire about how often they have moved schools. In his continuing investigation, Singh also hopes to dissect the reasons why students moved, to see if that can be another factor explaining the intriguing connection – if children move frequently because they are bullying others or being bullied, for example, that may suggest that the association to psychosis-like symptoms may have more to do with the students' pre-existing behavioral state than the experience of uprooting themselves so frequently.

student mobility are so pronounced that some studies suggest entire school districts with high student churn rates can expect to have lower high school graduation rates, overall.

Here's the data behind these conclusions:

Student Mobility Hurts Academic Performance

Scientists have long suspected that students who switch schools tend to have poor academic outcomes. One of the most definitive studies of this phenomenon was published in 1998 in the *American Journal of Education*. Researchers analyzed data from 13,000 eighth graders, and concluded that "measures of social and academic engagement, such as low grades, misbehavior, and high absenteeism, predicted both whether students changed schools or dropped out," and that students who switched schools even once between eighth and twelfth grade were "twice as likely to not complete high school." Here's a breakdown of their results:

Even Normal Transitions Do Damage

The 1998 study specifically looked at "non-promotional changes"—student mobility due to factors besides moving from elementary school to middle school and from middle school to high school. But a more recent study highlighted the issues with even routine school changes. Researchers followed nearly 6,000 kindergarteners through high school, and concluded that preteens who attend K-8 schools (and thereby transfer only once, rather than twice, on the way to high school) have superior self-perception and higher grades, in general.

[redacted] m bringing this up again.
There is a meeting I'm attending to this evening for the district regarding displacing kids from their current school. Would you be open to helping with a letter? I am worried about how this is going to affect her developmentally and emotionally. A parent mentioned to me she is writing a letter herself and I think I will do that as well but I'm sure your word as a profesional would count much more.

I'm looking to go to the district this month with [redacted] and speak with the superintendent in person.

Thank you ☺

The photo you sent is so small, can you re-send it and have it send as a larger image? when I expand the letter its so blurry I can't read it.

Also, what is the name of her current school?
Will she be transferring to a newly constructed school?
What is the name of the school they want to transfer her to?
Thank you,

These email records are confidential between [redacted] & therapi psycholog

Please destroy after use.

[redacted]

We got this letter that is attached from the district stating my daughter [redacted] is going to be forced to move to another elementary school as of next school year. I am panicking and I don't even want to bring this up to [redacted] until I find a solution because I know that unfortunately she is an anxious little human like her mom (me).

[redacted] called the district and they said she would be able to stay in her current elementary school if she had a sibling attending there or if she was in 4th grade, she is only in 3rd. They basically told him over the phone what the letter already says.

I was thinking that maybe a letter from you would help in better explaining how this would affect her tremendously emotionally and possibly also affect her focus on learning. She is doing so well so far and she is such a polite smart kid with a good amount of confidence and I am scared that she will loose her confidence and focus if she is forced into a new environment.

Thank you for taking the time to read this; I'm just desperate and first thing I thought of was asking you for help or lying about our address but I don't know anyone who would let me borrow their address and I don't want to get in trouble for it either.

Hi [redacted]

I'm going into sessions for the rest of the evening. I will print out the letter and read it, and get back to you possibly tomorrow.

I'm writing now to tell you to just take a deep breath, and relax. She may have to move schools (I haven't read the letter), but I will look into it and get back to you.

I know you're anxious so I'll try to get this done by tomorrow.

Stay relaxed.

Hi [redacted], good morning. I am reattaching the letter to this email.

[redacted] goes to Monta Loma elementary which typically does not have a long waitlist. Her neighborhood assigned school is supposed to be Castro Elementary but we do not like that school and never enrolled her to it. The district allowed her to go to Monta Loma since she began kindergarten and now they are deciding to place children back to their neighborhood schools, now that she is in 3rd grade. It's not ok they are making kids go through this stress mid elementary.

From the research I've done, it looks like this is all taking place because popular elementary schools such as Bubb, Huff and Landels are overcrowded and the waitlist are so long that kids from those neighborhoods are not being allowed to attend their own assigned schools. After doing the research and finding out all of this chaos is not related directly to Monta Loma I feel hopeful that I will be able to convince the district in keeping [redacted] where she is for 4th and 5th grade.

I'm worried once all children are placed back to their original neighborhood schools, Monta Loma wont have space for [redacted]

Re: [redacted]

My son currently has an IEP at Monta Loma, which he has had in place since his Kindergarten year. He is now in the third grade and going on to forth. Under his IEP, he has thrived and grown, both academically and personally. His familiarity with the Monta Loma staff and his surroundings has helped him tremendously, and we feel that moving him to another school would set him back as he would have to navigate a new school, new staff, make new friends, and familiarize himself to new surroundings. Although an IEP is technically movable from school to school, or even state to state, the quality and type of instruction he will receive from Theuerkauf staff is what concerns us. The move to Theuerkauf is not voluntary, and we would ask the district to please consider his special education needs in order to keep him at Monta Loma and continue to learn along with his current Monta Loma staff.

I am currently serving as the treasurer for the Monta Loma PTA and was reelected for a second term by my peers. I have done a tremendous job in straightening up the books and procedures for the position, and my fellow PTA members have expressed dismay that I may have to abandon my post if our family is forced to move to Theuerkauf.

Our family is fairly entrenched in Monta Loma, we like the comradery we have built up amongst the families that attend there, even though it is not our immediate neighborhood. Both me and my husband's families have military backgrounds, and although we both are not active duty military, we can personally relate to and have become friends with many of the military families that get stationed at Moffett and their kids that attend Monta Loma. My son will only be at the school for two more years and he will move on to Crittenden. My husband was born and raised in Mountain View, and personally attended Theuerkauf School, and even he agrees that it would be best for the kids to stay where they are at.

Re: [redacted]

If my son's request for placement exemption were to be accepted, I would like my daughter to attend the same school as my son. It would be unreasonable to have my children attend two different elementary schools and would put an undue stress on our family to have to coordinate drop offs and pickups.

I am currently serving as the treasurer for the Monta Loma PTA and was reelected for a second term by my peers. I have done a tremendous job in straightening up the books and procedures for the position, and my fellow PTA members have expressed dismay that I may have to abandon my post if our family is forced to move to Theuerkauf.

To Whom It May Concern,

My daughter is a third-grade student at Monta Loma. We received notice that our family is to be relocated for the remaining years to Vargas. We would like to request an exemption from this change due to numerous health and academic reasons.

is one of four children that have attended Monta Loma. We have history at this school and have a sense of community with Monta Loma staff and parents. They are aware of health history i.e. ITP, peanut allergy and hearing loss. Also, has been enrolled in the SENG coding classes for the past 2 years. We hope she continues to participate in these after school classes that are not offered at any other school in the MVWSD.

brother , is also currently enrolled at Monta Loma and we would like to keep them attending school together. Please consider our request as have always been a Monta Loma family.

We look forward to your response and attention to this matter.

Warm Regards,

[redacted]

1400 Montecito Ave, Mountain View, CA * www.mvwsd.org * 650-526-3500

January 25, 2019

Pursuant to the letter from the MVWSD dated Nov. 1, 2018 (attached), I am applying for an exemption during open enrollment period to attend a school that has excess capacity. I am requesting that my son be allowed to continue at Monta Loma where he has attended school since kindergarten, since Monta Loma will be under-enrolled next year.

This request has added justification because of the unique status of Shenandoah (where we live) as federal enclave. Shenandoah is a very distinct community. We are bounded by Moffett Blvd, Middlefield and US 85, all very busy roadways. There is a dedicated playground where all the kids play. There is a dedicated basketball court.

The recent decision to allow half of the children at Shenandoah to remain at Monta Loma based on one parent's occupation (rather than on geography) splits this neighborhood.

In addition, the two residential federal properties in Mountain View, Shenandoah and Westcoat, together form a larger social community. Families interact and support each other, not based on the occupation of one parent, but because they are neighbors. There is daily "Community News" to residents of both places (example attached). There are many social events for everyone at Shenandoah and Westcoat - Halloween party, Chrismas party, back-to-school party, gift wrapping station etc. There is a shared community center and dog park. Everyone but a handful of families at Shenandoah has been allowed to stay at Monta Loma.

I have built a strong family support structure here. A neighbor has been providing after school care for my son. Since her daughter will remain at Monta Loma next year, she will not be available to provide this essential and affordable care if my son is not at the same school. My son has also relied on the Moffett bus to get to school. This transportation is not available at another school site. As a single parent who works full-time, this is the community that I rely upon for essential support.

Not only will I lose my family support structure, my child will be isolated: there are 4 second graders currently assigned to transfer in our neighborhood. Three are "active military" so my son will be the only student from his grade to be reassigned.

This will be particularly devasting to my son as he is on the autism spectrum. In 2014, he was diagnosed with ASD and anxiety. (For his privacy, I am not attaching medical records here, but I am happy to provide documentation from Stanford as well as years of therapist records if that becomes necessary.) Social skills and relationships are an on-going struggle, but he has established himself at Monta Loma and is doing well there. I am concerned that moving him from his established routine, known classmates and neighbor friends will cause immense disruption and potential regression. I have consulted with an education advocate in the community and it is within my rights as a parent to request this exemption. I firmly believe it is in my son's best interests, especially as Monta Loma will have capacity for him next year.

Please keep my family support structure intact and keep our neighborhood intact by allowing my son to remain at Monta Loma. It is in his best interests and best fulfills the goal of "neighborhood schools" especially as Monta Loma has excess capacity.

I appreciate your time and help. And I invite you to visit Shenandoah if you aren't familiar with our neighborhood. Given that the uncertainty is already negatively affecting my son's behavior, I am requesting a response or the opportunity for a hearing as soon as possible.

Thank you.

To the Parents of:
[redacted]

Dear parents of [redacted]

You recently received communication from us about a change in your child's school of attendance for next year. Your child, [redacted] **will be assigned to this neighborhood school next year: Theuerkauf Elementary School.**

Important information for families transitioning schools:
• Curious about your new school? Please visit www.mvwsd.org/transitions for information and check the list of dates of welcome events for parents and children. The District and school communities will be working to ensure student transitions to new neighborhood schools are as smooth as possible. We hope to see you at these events!

Background: The Board of Trustees last spring approved new school boundaries, to be enacted next year/in the 2019-20 school year, to redistribute student enrollment among the District's elementary schools and facilitate students attending their neighborhood schools. Next year, in the fall of 2019-20, kindergarten-4th grade students in transition neighborhoods and those not currently attending their neighborhood schools may be attending new neighborhood schools, including the newly-constructed Jose Antonio Vargas Elementary.

Only students currently in transitional kindergarten through third grade in transition neighborhoods and those not currently attending their neighborhood schools will be impacted by a change in attendance area. Students currently in grades 4-8 will not be affected.

Exemptions:
* If your child is currently enrolled in a choice program at Mistral Elementary or Stevenson Elementary, he/she will continue to be enrolled there.
* If your current TK, kinder, first-, second-, or third-grader has a sibling who will be a fifth-grader in 2019–20, you may choose to have your younger child attend his/her current school **for the 2019-20 year only** with your fifth-grader. If this is your circumstance, look for a survey in December in which you can confirm your preference.
* If you want your child to attend a school that has excess capacity, you may apply during open enrollment in January. Likely the typically impacted neighborhood schools (Bubb, Huff and Landels) will not have available capacity next year. The District will be assessing capacity this spring and will assign these applicants to schools in April, depending on space.

Please confirm your child's intent to enroll during the open enrollment process in January.

Questions?
For questions about boundaries and residency, please see www.mvwsd.org/residency. On this webpage, you may view the 2019-20 school boundaries map and use the SchoolLocator to search for your home address.

We appreciate your patience and support during this process.

Respectfully,
MVWSD Student Services

NEW Update on Dog Park: Yesterday the first part of the process to help minimize the foxtails in the dog park took place and today they wrapped up by putting out mulch. Please remember that the overall process to remove foxtails in the area will take several seasons as the plant goes through its growth process. Thank you again for your time and patience on this matter.

February 25, 2019

Dear Dr. Ayinde Rudolph,

I am writing to request my son, [redacted] be allowed to enroll at Monta Loma Elementary school for the upcoming 2019-2020 school year under your MVWSD Board policies and Administrative Regulations.

During open enrollment, I submitted a form provided by the district office. However, I am confused by the process and timeline. The process I was verbally told varies significantly from the process for open enrollment codified in the Board approved policies and regulations on your website.

Although a list of schools which have space available for additional students has not been posted on the district's website (per AR 5116.1), my understanding is that Monta Loma will be under-enrolled next year.

Priority to attend another district school will be given to any student with a special circumstance that includes threats to the emotional stability of the student. Per this exception, Board Policy 5116.1 section 4.(a), I am attaching a letter from a licensed and registered therapist who has worked with my son for several years. I am happy to provide additional documentation as necessary.

In providing this information, I am concerned about my son's privacy as I am unclear on the process for approval. My understanding is that you can approve this exemption based on the priority above. However, I have heard that a panel is being set up that includes outside individuals to review the merits of requested exemptions. Board Policy states that except for priorities like my son's, "a random, unbiased selection process to determine who shall be admitted" is required (Education Code 35160.5). Per HIPAA law, I do not want details of my son's diagnosis and therapy being shared with anyone outside necessary district personnel.

I recognize that this has been a year of change and stress for the district. Likewise, this continues to be a source of stress and anxiety for my family. Please approve the exemption for my son to attend Monta Loma per Board Policy 5116.1 section 4 (a). As Monta Loma is under-enrolled, this seems a straightforward request and it is clearly in the best interests of my son.

I appreciate your timely response as I consider my next steps.

Regards,

[redacted]

[redacted]

February 11, 2019

Dear Dr. Ayinde Rudolph,

My name is [redacted] and I am a pediatric occupational therapist working with children with a variety of developmental delays. I had the pleasure to work with one of your students from Monta Loma Elementary, [redacted] for nearly three years, and still remain an active part of his support team. [redacted] is now in second grade and has made tremendous gains with regard to his behaviors, social emotional development, and overall confidence in navigating the academic and social demands of being a student. [redacted] has been clinically diagnosed with ASD (Autism Spectrum Disorder) and Anxiety disorder, and while these labels should not form a narrow frame through which we view [redacted] abilities, they should be considered when suggesting impactful changes to his daily life such as switching his school.

Last year, when [redacted] was in first grade, I conducted a classroom observation to gain a better understanding of his adjustment to the school, routines, and social engagement with peers. While he still had areas of needed improvement, overall, he actively participated in the classroom, did not disturb others during instruction or classroom activities, followed along with the ebb and flow of the school routine and noticeably tried to demonstrate age appropriate play with peers. This has always been an area of difficulty for [redacted], however, to watch him willing to develop relationships and strive to make connections was a sign of his sense of security with this group of peers, something that took well over a year to even begin to establish.

Children with ASD and Anxiety do not typically tolerate change well. Even the slightest adjustments to schedule can set a child off into feelings of uncertainty and fear, causing behavioral issues to ensue in an effort for that child to feel in control and protected. In addition, developing peer relationships has been a particular challenge for [redacted]. New peers and novel play environments are particularly unnerving for [redacted] and as such, he often chooses to avoid these situations. He has worked hard to make and sustain friendships at Monta Loma Elementary as he has now been with this same group of individuals since kindergarten and is familiar with the routines of the school and playground setting. Of course, in life we are not always protected from typical changes and these transitions are something that [redacted] continues to work to tolerate in a more efficient manner. That said, an intense change such as a whole new school, new rules and routines, new faces of staff and peers, etc. could be a huge set-back for [redacted] This disruption would be system-wide, causing him to remain in fight, flight or freeze for potentially months as he adjusts. During this time, he will likely establish maladaptive behaviors to feel safe and ensure personal well-being. These behaviors will not only be detrimental to his academic development but greatly impact his ability to develop friendships and have a positive social atmosphere at school, a critical component of everyday life for a child.

While I understand there are rules in place that indicate [redacted] would need to switch school environments due to the rezoning of district boundaries, I am asking that you consider an exception to allow him to stay at his current academic environment with his peers. Having to change schools is tough for any child, but for [redacted] I truly believe a shift of this magnitude will threaten his emotional well-being in addition to being an immeasurable impediment for his academic and social development. From a professional perspective, I strongly

To whom it may concern,

We are one of the families affected by the new attendance boundaries. Our two older children, [redacted] and [redacted] are currently enrolled in Grade 2 and K respectively, at Monta Loma elementary school. [redacted] has attended Monta Loma for three years. Both of my children are slated to attend Mariano Castro Elementary school for 2019-20 school year. While we do understand the need for attendance boundaries to be redrawn, we are also extremely concerned about the mental and physical impact the school shift would have on our children. Thus, we are asking for an exemption from the new boundaries.

Monta Loma being one of the under-enrolled schools in the district, we think it is a reasonable request to allow our children to continue to attend Monta Loma. If an exemption cannot be provided for our children to attend Monta Loma, we will be forced to make the very difficult and unfortunate decision to withdraw their enrollment from Mountain View Whisman School District and enroll them in a homeschooling program. Along with the jarring impact such an event would have on my family, I believe it would also have a negative impact on MVWSD budget since the district would lose local and state funding for our children.

[redacted] and [redacted] are both high performing students, who have thrived at Monta Loma academically and socially. In losing two high performing students, Monta Loma will also be losing two students who help to keep Monta Loma test scores high and help it maintain its path to a high school ranking. As parents, my husband, [redacted] and I are active volunteers in the classroom and have made several donations to the school each year. However, discussions with my children regarding attending Mariano Castro next year brings about panic attacks in my son, [redacted], who suffers from anxiety. The transfer to a new school would have a detrimental impact on his mental health. This would create a domino effect on the mental wellbeing of our entire family of five.

The district's decision to reassign our neighborhood to Mariano Castro based on reasoning of being able to provide safe passage to school might also have been misinformed. Yes, our current path from [redacted] Street to Monta Loma involves crossing train tracks and Central Expressway, but once Central Expressway is crossed, Monta Loma neighborhood is quite safe for walking children. On the other hand, our walk to Mariano Castro would involve a significant walk along a very busy Rengstorff Avenue and California Street. The Mountain View Voice reports that California street has one of the highest number of collisions in the city. Several accidents have also been reported on Escuela Street, in front of Mariano Castro. The twice daily walk to and from school would create a physical safety concern for our family and further create anxiety in my son.

We would greatly appreciate it if the MVWSD would consider exempting our family from the new boundaries. Thank you so much for taking the time to read our letter.

Sincerely,

[redacted]

Mis preocupaciones Son que la maestra de mi hijo no se apresentado, por motivos que La directora, solo mando un texto donde dice que si uno quiere hablar con la maestra tiene que hacer una cita, nos preocupa, si esta semana no pueda Volver a regresar la maestra, y nuestro hijo vaje, del grado,.

ahorita no tiene tareas, y nos preocupa no sabemos que es lo que esta pasando.
y prefiero mi hijo sea trasladado a Mar Vano Castro a puro ingles.
si esto pasa ahora no sabemos despues.

11 / abril / 2019 estuvo el open hause trabajo con la maestra de español pero, no se encontro, por el motivo de que la suspendia y la verdad no es justo, ni para la maestra que trabaja mucho con los niños.

The reason is because I don't see the progress in English, half English/half Spanish and it concerns me that he does not progress in English in 5th grade.
My concerns are because my son's teacher has not been present and for this reason the principal has only sent a text saying that if we want to talk to the teacher, we have to make an appointment; we are concerned that if the teacher cannot return this week, our son's grade will go down.

At this moment, he does not have homework, we worry because we don't know what is happening. I prefer that my son could be transferred to Mariano Castro to have only English. If this is happening right now, we don't know what will happen later.

On April 11, 2019 they had the open house, worked with the Spanish teacher, but she wasn't present, it was canceled for this reason, the truth is that is not fair for the teacher who worked hard with the kids.

To Whom It May Concern:

This letter is written by parents to petition school placement for [redacted] and [redacted]

[redacted] is diagnosed and is being actively treated for an autism disability. [redacted] autism has been a continual challenge for our family.

One of [redacted] severe difficulties is dealing with big change. While we are actively working on therapies to help [redacted] accept and deal with regular small change, he has not yet developed the ability to deal with "big" change. Such "big" changes cannot be processed in [redacted] mind. This type of change puts [redacted] in a deadlock cataclysmic loop. He has extreme trouble digesting this kind of change.

When [redacted] started at Monta Loma our family suffered MONTHS of debilitating mornings where [redacted] stayed in bed crying because the school routine was different from what he knew previously. Then every night was consumed preparing [redacted] mentally for school the next morning. Finally after months of building a routine and trust in familiar people/surroundings, [redacted] is finally confident and comfortable at Monta Loma.

In [redacted] early life our family moved often. Following [redacted] autism diagnosis, we were counseled to stop moving. Our family made necessary changes to make it possible to stay in one location for a prolonged period. With stability in Mountain View, [redacted] has made tremendous progress. We feel that a severe change like changing schools will be a major setback and will require months of catchup correction. This will be harmful; not helpful in helping [redacted] learn to deal with change.

For these reasons we pleadingly petition [redacted] placement at Theureukauf. Please help our family and allow [redacted] (along with his brother [redacted]) to remain at Monta Loma. Please enable [redacted] to continue to progress in a familiar and stable setting. Please allow [redacted] (and [redacted]) to remain at Monta Loma..

Thanks

[redacted]

[redacted]

[redacted]

To Whom It May Concern:

I am writing to you on the behalf of the parents of [redacted]. I have been working with [redacted] and his family since October 2017 and providing individual therapy since October 2018. [redacted] has been diagnosed with Autistic Spectrum Disorder. He has poor social skills, rigid thinking, difficulty regulating his emotions and challenges with transitions. I have been working on helping him identify and manage his feelings, develop coping strategies, negotiate/manage transitions and increase appropriate peer relationships.

Currently [redacted] is doing well in a predictable and supportive school environment. This is allowing us to work on increasing and refining his coping strategies, so that when he finally transitions to middle school, he will be able to successfully negotiate the huge transition. I have concerns that an unexpected school transition next year will undermine the progress [redacted] has made and interfere with our ability to help him successfully transition to middle school in two years.

I join [redacted] and [redacted] in strongly urging you to allow [redacted] to stay in his current school placement. If you have any questions please feel free to contact me with the appropriate release.

I'm writing to petition that my nephew [redacted] be allowed to remain at his current school, Monta Loma.

[redacted] has been attending Monta Loma with my son, [redacted], for the past four years. My son has a serious neuromuscular disease requiring round-the-clock care including mechanical ventilation, a wheelchair, tube feeding, and an RN to assist him with all tasks. Having his cousin [redacted] with him at school has been such a comfort and support to him as he is constantly having to rely on different nurses and adults to do everything for him. [redacted] presence at school reduces his anxiety and makes school something he looks forward to. The boys aren't able to spend much time together outside of school due to [redacted] being involved in [redacted] that [redacted] can't participate in, and [redacted] requiring more time at home for medical reasons. [redacted] life is precarious and we want to do everything we can to maintain the special relationship between these two boys. With all of the challenges [redacted] already has to face, separating him from his cousin is not something we want to add to the list.

Keeping these two boys together is a priority for both families involved and we hope you'll take these things into account when making your decisions about intradistrict transfers. Just as the district doesn't put siblings in different schools, we hope you won't separate these cousins.

Thanks for your consideration.

Sincerely,

[redacted]

[redacted]

I understand you must be fielding phone calls, and reading emails and letters asking for exceptions all day long. There isn't much I can add to [redacted] letter of petition, but I hope you'll read her letter carefully.

The fact is, my youngest sibling will eventually live with the pain of losing her child. My son will most likely have the rare and terrible experience of losing his best friend sometime during his childhood. If there is anything we can be doing to make [redacted] and his parents' lives a little easier, I can't think of a reason in the world good enough not to do it.

Principal Lyons, and later Principal Higgins supported placing [redacted] and [redacted] in the same classrooms for all 4 of their years at Monta Loma so far. [redacted] has so little control over any part of his physical environment, and depends entirely on others to keep him protected. That takes a toll on his emotional wellbeing, and he needs a few loyal friends around him ***just*** as much as he needs his nurse by his side.

The two good friends [redacted] has at Monta Loma [redacted] and [redacted] are both up for transfer to Theuerkauf. I hope you will look out for the [redacted] family's petition as well. We should do everything possible not to break up this little 'band of brothers'. They really need each other.

Please feel free to call me with any questions you may have,

Thanks and take care,

[redacted]

P.s. on a related note, I don't want to separate our daughter, [redacted] from her brother. Please allow both my children to remain at Monta Loma.

[redacted]

MI SITUACIÓN NO SEA MUY RELEVANTE PARA USTED
PERO ESPERO QUE ME PUEDA BRINDAR UNA AYUDA
CON MI CASO. SIN MAS QUE DECIR ESPERO QUE CUADO
LEA MI MENSAJE TENGA UN LINDO DÍA ATTE [redacted]

[redacted]

I appreciate your time, the reason why I do not want that my daughter [redacted] moves from school is that I have another daughter that was accepted at Mistral and if they are together is very convenient for them, I am currently going through a separation process with their father and it is not convenient for them to go through too many changes in their lives, another reason is that for me it would be better to take them to school and bring them back, it's closer to my work and currently I don't have a car and I do not drive. I know that my maybe my situation is not relevant for you, but I am hoping that you could give me a help with my situation. Without having much else to say I hope that when you read my message you have a beautiful day. Sincerely,

[redacted]
