ORGANIZATION SPOTLIGHT for you to get involved.

Young voters are new voters and, as new voters, they face unique obstacles that result in turnout that is historically 20 to 30 points below older voters. This discrepancy is even greater in midterms, state and local elections. As a result, our democracy continuously fails to represent youth, generation after generation. As young voters overcome these challenges to break turnout records as they did in 2018, they've become the target of voter suppression efforts. From the rise of voter ID laws to intensified efforts to remove polling sites from college campuses, young people must navigate obstacles designed to keep them from making their voices heard. **Visit rockthevote.org and consider doing one of the following: Get three friends to vote. Help register voters. Take action on the issues.**
